## ARCLINEA

Named Italia, it comes with cabinet doors in a special black Armour finish obtained with resins treated with nanotechnology. This makes it possible to produce doors and worktops in the same material. Furthermore, it is scratch and abrasion resistant as well as water repellent.

## VALCUCINE

The ebony black Genius Loci designed by Gabriele Centazzo is inspired by the secretaire or traditional writing desk that comes with secret drawers. The new range boasts a slimmer worktop and roomier base units.

## POGGENPOHL

Poggenpohl and Porsche Design Studio joined hands to develop P'7350, a multi-award winning design offered in four hues including a smoked black in two kinds of finish. Solid wood worktops in New Zealand pine are used to contrast with the reflective surfaces of glass tops.

# FOCUS ON KITCHEN

## SCAVOLINI

Scenery, envisioned by King & Miranda Design, is a straight line composition with an unexpected inclusion of a breakfast bar in vintage oak. Its most distinct feature remains its handleless hinged wall unit door with black finished aluminium frame and porcelain stoneware tile panel.
